OPTIONAL FORM NO. Approved For Release 2002/06/14: CIA-RDP71B06-785A000100060133-0 UNITED STATES GOVERNMENT

## Memorandum

TO :

DAD/IO

DATE: 9 Dec 1964

FROM: DAD/S&D

SUBJECT:

Carl, I feel the problem here is one of realibility. A certain number of these things just won't retro-fire. Consequently, you'll end up dropping your reconnaisance equipment on somebody elses soil. If this were not a concern, then normal ground installations should be feasible.

Did you have some other type of application in mind?
